INNOVPLUS INFORMATION KIT

1. The innovPlus Challenge (“innovPlus”) is a competitive learning innovation grant challenge that awards a prototyping grant of up to S\$200,000 to winning organisations to develop and trial an innovative, feasible and scalable prototype that advances CET practice and learning outcomes. The innovPlus Challenge is organised by inlab of the Institute for Adult Learning (“IAL”). Winning submissions will be as determined by the innovPlus Panel (“IPP”) in accordance with the prevailing Evaluation Criteria and Terms and Conditions as administered by the innovPlus Secretariat. The innovPlus Grant is funded by SkillsFuture Singapore (“SSG”) and is administered by IAL, by appointment of SSG. IAL is an autonomous institute of Singapore University of Social Sciences (“SUSS”).
2. This document covers key areas on how interested organisations can participate in innovPlus and what participation entails. It includes the following sections:
 - Introduction to innovPlus
 - innovPlus Process Flow
 - Eligibility and Guidelines for Participation
 - Evaluation Criteria
 - innovPlus Award
 - Annex A – Official Terms and Conditions of the innovPlus Challenge and Grant

Introduction to innovPlus under iN.LEARN 2.0

3. iN.LEARN 2.0 is an initiative launched by SkillsFuture Singapore to drive innovation in the Training and Adult Education (“TAE”) sector from ideation to commercialisation through its three key programmes – the innovPlus, innovSpur and Sandbox. It will focus on four key areas:
 - i. increasing the uptake of online and blended learning by individuals;
 - ii. amplifying enterprises’ adoption of innovative learning technology;
 - iii. developing effective remote assessment and proctoring solutions for individual and enterprise-led training; and
 - iv. developing effective placement solutions that tighten the industry- training nexus.
4. As part of iN.LEARN 2.0, innovPlus contributes to the initiative by facilitating the rapid development and pilot deployment of prototypes that can address learning

challenges and exploit opportunities for better Learning and Development (“L&D”) and Continuing Education and Training (“CET”) outcomes, including design, delivery and assessment. It is organised as a competition for training providers, organisations with Learning and Development (“L&D”) departments, learning experts, solutionists and technology partners to collaborate and present a holistic solution to real learning challenges faced by the training provider, organisation and/or groups of learners. innovPlus could cover any/all of the following:

- innovPlus is typically conducted once every six months. In each round, prototyping grants, each up to **\$200,000**, could be awarded to the winning concepts to develop a prototype¹ for pilot testing with actual learners/users² within a maximum duration of 9 months³. In addition, the winners must co-fund 10% of the project’s eligible cost, in cash or in kind (referring to contributions, other than monetary, that defray a portion of the project’s cost). Additional costs incurred during the project duration will be fully borne by the winners themselves. In return, they will share their experiences and prototypes at IAL showcases and sharing sessions with the wider CET community.
- Organisations who satisfy the eligibility criteria and competition guidelines stated in the Terms and Conditions under Annex A may participate in innovPlus in either

pathway:

- i. Pathway 1: Organisations with learning challenges seeking a solution will submit the Challenge Statement application form.
- ii. Pathway 2: Solutionists who have identified an opportunity for innovation while working with their clients and the client is willing to own the challenge statement will submit the Expression of Interest form (Pathway 2).

innovPlus Process Flow

7. innovPlus consists of 3 broad phases:
 - a. Competition Phase of about 6-8 months leading to the innovPlus Presentation Day;
 - b. actual Prototyping and Pilot Testing Phase with a period of up to 9 months; and
 - c. scaling up and further engagement in showcasing for 12 months at any appropriate platforms.
8. Diagram 1 illustrates how the innovPlus works in the Competition Phase and the requirements for active involvement of organisations who submit their challenges for solutioning. The Challenge Owners are deemed the subject matter experts on the learning and development challenge and heavily involved in clarifying the challenge, the outcomes sought, as well as implementing and evaluating the accepted solution.
9. Summary of the Competition Phase process flow:
 - i. Pathway 1: Organisations with learning challenges seeking a solution will participate as Challenge Owners (“CO”), hear pitches from prospective solutionists on how their challenges can be overcome and select the solutionist whose ideas they assess to best meet their needs as their Solution Partners (“SP”). The participating CO organisation and its selected SP(s) will then form a Challenge Team (“CT”) to co-develop the ideas into a potential solution (prototype).
 - ii. Pathway 2: Solutionists who have identified an opportunity for innovation while working with their clients. The innovation will be something new that has not been started or worked on by the solutionist(s) and that has not been commissioned or ordered by client organisations. The solutionist participates as a Solution Partner by bringing in the client who is willing to be the Challenge Owner to own the challenge statement and pilot and evaluate the

proposed innovation. The CO and SP will then form a Challenge Team (“CT”) to co-develop the ideas into a potential solution (prototype).

10. The Challenge Teams pitch their solutions in the final round of the competition, known as the innovPlus Presentation Day. On that day, the teams will present how the envisaged solution could deliver the stated learning outcomes with a presentation and demonstration to the innovPlus Panel (“IPP”).

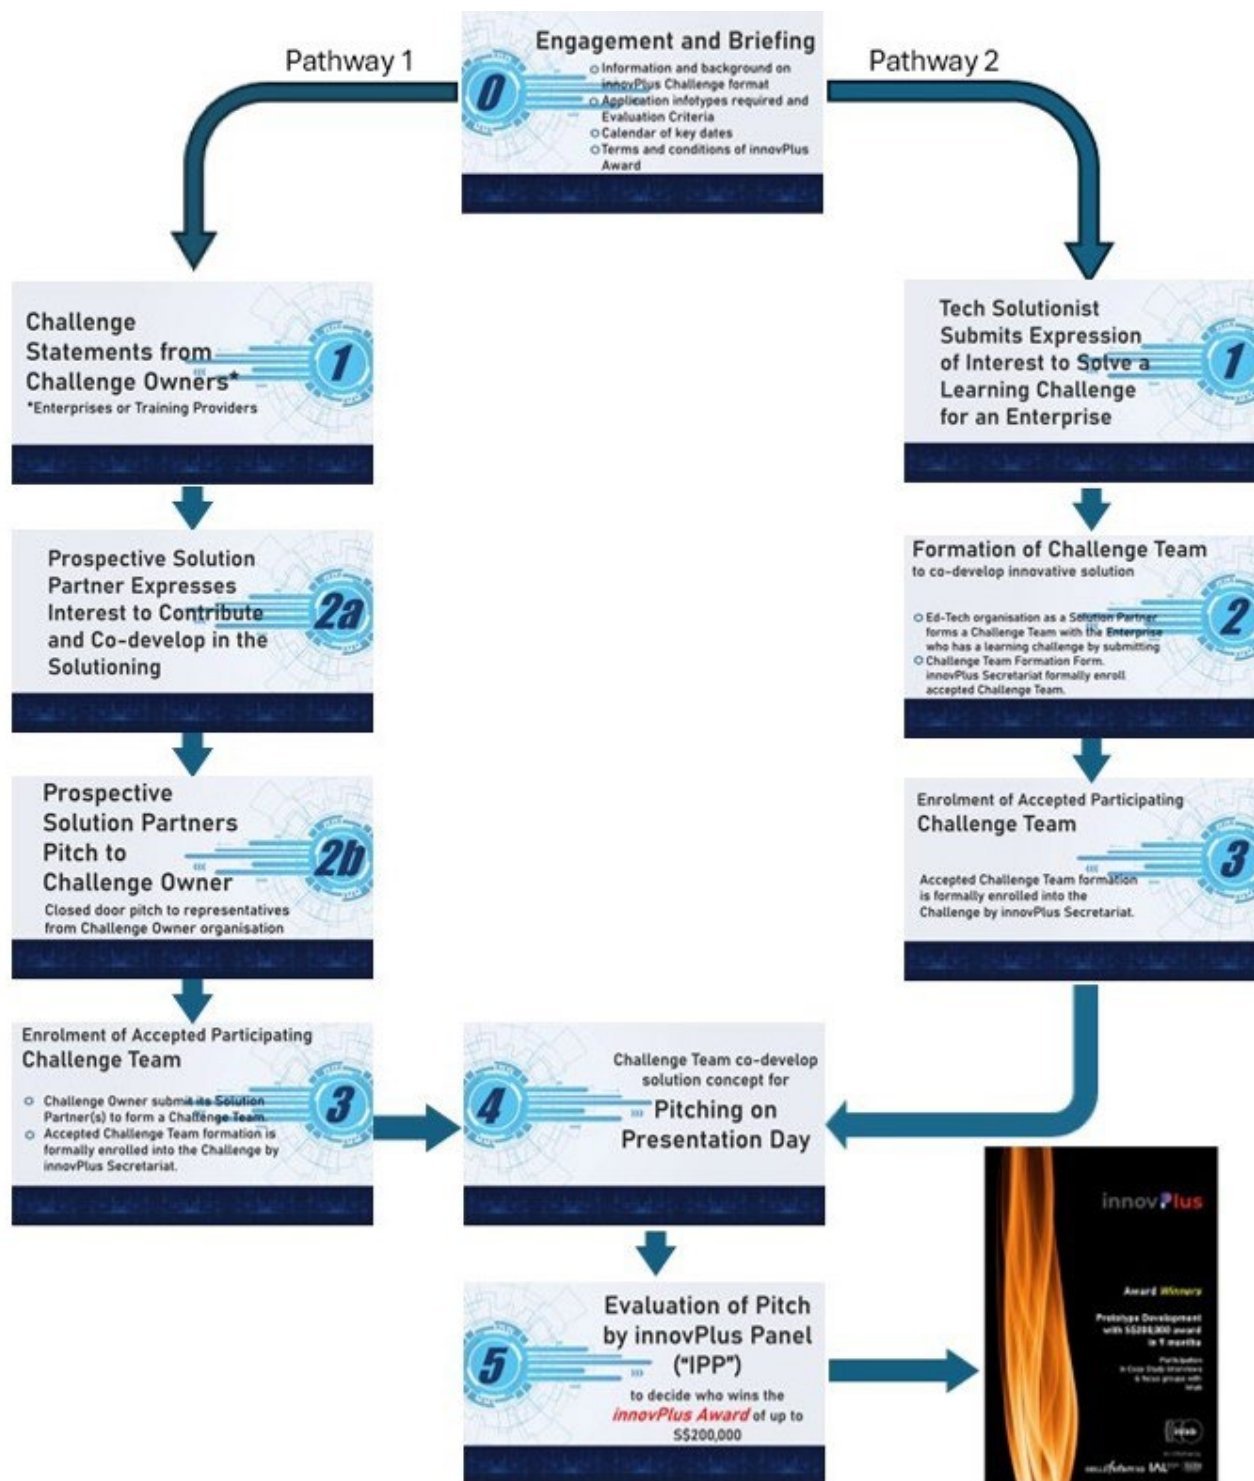

¹ A *prototype* is defined as an original and novel model, form or solution, with its primary utility being to advance more effective learning. The key operators in this definition, ‘original’, ‘novel’, and ‘more effective learning’, must be clearly conveyable and verifiable.

² *Actual learners/users*, is defined as the persons, intended by the learning challenge, who would benefit from, either by way of learning enabled by or by use of the outputs of, the developed prototype. Pilot testing shall encompass minimally 30% of the targeted primary learner/user population, which cannot be less than 15 users per pilot run.

³ 6 months to complete a workable Proof of Concept with User Acceptance Test, and an additional 3 months to show scaling up of prototype (where applicable) and usability to 30% of the targeted primary learner/user population, which cannot be less than 15 users.

(“LOA”), innovPlus will enter the Prototyping and Pilot Testing phase. The process flow is as depicted in Diagram 2. The Challenge Team will sign the LOA with IAL if it accepts the award and agrees to develop and trial the prototype solution presented to the IPP. This phase will see the translation of the prototype solution proposal to a working prototype that will pass the User Acceptance Tests (“UAT”) and pilot testing and evaluated by Expert Reviewers.
